Union Building Notes

A Little Rebuttal

union housing a swimming pool regrets the situation very much. Out-

side of the effect of water vapor up-on the walls and floors, there are

on furniture and bathing-clad fig-ures all over the building. Concern-

ing the indoor tennis court, too much space and money would have been

required. Besides that, fairly ade-

quate indoor courts are provided in the gym annex. According to pres-

ent plans, non-dancers and others

who do not wish to pay for a dance

will not be excluded from the build-

ing, but only from the ballroom. As for building a "real" structure,

there is a difference of opinion on that matter. From all we've seen

and heard, it is a real structure.

There is the argument that if we

had waited, more money could have

been raised, but there is also the ar-

gument that the money would have

Only Yourself To Blame

T IS WRITTEN that moral indignation will not mend the ways of microbes, and that bit of phraseol-

ogy certainly applies in the case of syphillis. Since the inauguration of the anti-syphillis program in THE KERNEL, certain individuals have suggested that students infected with the

disease are not worth "fooling with. All we can answer is that syphilis is a disease, and as,a disease it must be treated. It is causing three times as much damage than infantile paralysis. And at the present time only one person in every ten having the disease is receiving adequate treatment.

No amount of moral indignation can change the fact that the peak age of syphilitic infection females is 19 years and in males, 21 years.

Public scorn of the infected can not alter the fact that only 45% of physicians today treat the disease, and a considerable number do not administer the Wasserman test to suspects. In the

The University dispensary is equipped to administer the Wasserman test to small numbers daily. The dispensary can also treat the disease.

Students who suspect they have syphilis or who may have been exposed to the disease, should report for a Wasserman test immediately. For failure to do this, there is no excuse.

Taking An Inventory

INTERESTING to note on the campus was the conference held

Saturday morning by the Association of Women students for the mothers of women students who attend the University.

A panel discussion centering around the question of what a college education should do for the student was presented by two mothers, two co-eds, and two faculty members. Various reasons were given for a boy or girl entering college, such as to gain a broader knowledge of the world in which we live in order to enjoy life to its fullest possibilities, to grow in understanding and tolerance of another person's viewpoints, and through technical training to insure ourselves of earning a livelihood.

Contrary to the belief harbored by many parents today that the younger generation is living recklessly without a thought of tomorrow, these mothers were appreciative of what the staff of the University is doing to mould the lives of their offspring. The general opinion formed was that if a girl or boy receives the right training within the home, he or she will prove worthy at college and later in life.

It would be worthwhile for us as students to pause a moment in order to evaluate the opportunities offered in college, and to question ourselves as to whether we are receiving the best things four years of college life can offer.

Life To The College Spirit

F or years now, transfer students and incoming freshmen from other schools where there

was a definite unity in feeling and a lot of the rah-rah spirit have bemoaned the fact that U. K. seemed to be lacking in these traits. At football games, it took a 100-yard dash to lift the students from their seats. At dances, nothing short of a miracle would gain spontaneous applause.

There were some obvious reasons for these shortcomings. Housing conditions were such that University students were scattered far and wide. With so little unity in location of living quarters and with no central meeting place to offset this lack, very little unity in spirit could be expected. Secondly, in the matter of dances, one hardly could be expected to explode with

excitement over anything in a gym which, in spite of all manner of colored paper, still remained a sports arena.

Housing conditions still are lamentable although plans are underway for improvement. But the central meeting place has been provided and you saw the result at Saturday night's grand opening. It must have sounded good over the air -that roar of applause which followed the bekoning of George Hall's finger. The new spirit was evident in the general atmosphere of the building, in the game room, the lounge and the soda

Of course, there were a few who smoked in the ballroom, tossed cigarette butts on the linoleum, who acted in general like the thoughtless individuals they are. However, they are a minor element and after they have been weeded out by the governing board by exclusion from the building, then will the new spirit unanimously

Maybe it "just goes to show" that when students are given the desirable surroundings-when they are placed in the correct environment-they will instill with life their dormant enthusiasm and give to outsiders a true picture of spontaneous college spirit.

Behind The Eckdahl

By ANDREW C. ECKDAHL

R ULE NUMBER 6 of the by-laws of the Kentucky Student Union concerning the new Student Union building bothers us. The rule reads as follows: "No book, journal, paper, picture, furniture, trophy, work of art, or article of equipment may be taken from the building, or taken from one part of the building to another.

There is no telling what will result if this rule s enforced, and we feel sure that Mr. James S. Shropshire, the director, intends to see that rules are enforced, as of course, they should be.

Every time a student happens to carry his extbooks into the building he will be in a jam. He can not take them out according to the rule. The same will apply to library books, Kernels, Sour Mashes, other periodicals, etc.

The rule may not bother some students as a few do not carry any books and others will be happy to be legally rid of their texts. But all this printed matter lying around the SU building is going to clutter up the place more than some-

It would be better if the books could be stored in one room, say the ballroom or the director's office, but such is not the case. The rule explicitly states that they can not be taken from one part of the building to another

If the latter portion of this rule is enforced all printed matter must be dropped immediately inside the door to avoid carrying it from one part of the building to another. Why in a short time we won't be able to use the entrance ways because the books and papers will be piled so high.

Which means that windows will have to be during the past used for doors. And won't the evening dressed week-end of festivities | co-eds look silly trying to climb in through win- ed by desirous students must have dows.

> Also, we wonder what constitutes a "work of art." In our opinion the way some coeds apply make-up transforms their faces into works of art. If this should be accepted as the Student Union definition of work of art, coeds will have to remove make-up before leavnig the building.

Which means they will put up a howl. There s nothing a coed fears more than to be seen without her face smeared with patented pul-

And the mer won't like it either. Imagine going into the building with a hunk of heaven and coming out with a hag.

Boy, are we glad we aren't Mr. James S. Shropshire, the director. . . .

I waited from 8:00 to 9:35. Only half over. Had to leave. Congrats. H. M. S.

(The above note was found chalked on the large bulletin board on the first floor of McVey hall. From the tone of his note we gathered that H. M. S. was a bit desparate, so we thought we would help him along. Maybe Louise reads our column.)

We see that the latest edition of Sour Mash, the one that went on sale last Friday, is dated in the masthead, "April, 1935."

Dating the magazine to fit the jokes?

"Competition is open to all in the fourth annual baby chick show, sponsored by the University Poultry club, which will be held May 17 and 18 in the ball room of the Phoenix hotel."

-Story in THE KERNEL. (Even Neville Tatum's dogs?) . . .

Our friend Butch, the traveler, writes from the deep South as follows: "It is warm down here. Yesterday I was lying on the sidewalk floating to and fro in the heat waves."

"Destruction of the building and its properies and possessions will not be permitted."

-Rule 7, By laws, Kentucky Student Union. (Japanese bombers, please note.)

RAVELINGS

By JOHN ED PEARCE

WITH THE most impressive opening ever accorded any campus edifice, the new Student Union building broke the seal on the door Saturday afternoon, and was formally introduced to University society. Far surpassing the expectations of most of the students, the building spread its periment Station has won three virginal beauty before the protrusive eyes of students, Lexingtonians, scores of high schoolers, and various other members of the species who came to scoff and remained to collect stiff necks from ogling the magnificence of the structure.

The building bulged with the curious. People rushed around trying to inspect the whole layout at once, comment-

sternation siezed the crowd when.

At eleven thirty, when the band

ng, laughing, staring, with mouths agape. They weren't quite at home at first; they sat gingerly in the chairs, hesitated to touch the gleaming new furniture. Like a wo-year-old with a new toy, they didn't know quite what to make of it. Members of ODK stood majescically in the hall, looking very about the whole thing, although a little awed with the nature of this monster which they had helped to create. It was definitely their day. When the recreation room began to fill. Slowly, the milling mob became less uncertain; the people slowed down. Then, as if they had scanned the situation thoroughly and approved, they began to light. They lolled in comfort; they had made themselves at home. And the S. U. Building

Sideline But the clamor of the afternoon able. tidings of the fracas of the evening On the afternoon before the dance, dance-minded sororitarian happened to think, which may or may not be news. The gist of her thought was this—with the new The following statements ballroom arrangement, should their crowd deposit itself in the new room; where should they dance? The thought of the impending dilemma agitated her to the inger-nail biting stage. Desperatev she rushed to the sorority house. The president of the chapter was nformed of the plight and was duly appalled. A meeting was hastily called. All the girls grouped together. It was a serious moment Then one of the more intelligent sisters came through with a honey of an idea for a dancing spot. It was agreed upon. The girls sighed. The situation was saved. After all, one doesn't dance outside of one's own crowd. One just doesn't mingle with the common people on the

floor, But definitely not. Overture The high point of the day was, of course, the dance. With fanfare and flourishes, the ODK-Engineer's Ball shoved off into the socia stream to the music of the much-plugged Mr. Hall and Co., who outdid themselves in justifying their advance publicity. When the fatal hour arrived, the new brick pile As a terpsichorean tangle it was was congested with approximately 2800 jitterbugs, who managed to secure admittance. Pathetic was the sight of the line which formed outside the building. Those who failed to buy the pre-dance ducats now came enmasse with the two-dollar skins in hand, thinking they could buy their way into this, as into all other similar struggles. Sad was the fate that awaited them, for the doorkeepers, who were forced to admit that the building was overburdened with humanity, had to refuse them entrance. The sight of the numerous fives that were flashwrung the hearts of the ticket takers, but the order stood, and the

line lengthened. Main Feature Inside, all was light and color. The ballroom, built to acomodate 1500 people, was glutted by the mob. The more ardent swingsters were slowed down to a mere shadow of their former exuberance by the scarcity of room. It was practically suicide to attempt a crossing of the floor. One hapless individual started to crash through the maelstrom of flesh, got his arm entangled in passing couples, and it feared for a moment that an amputation would be necessery to extri-

cate the limb of the unfortunate. The many adjectived Hall and band, took a jump on their advance ballyhoo, and really made the trip to town. Dolly Dawn, a pudgy cutie with rhythm and weight to spare set the collegians on their ears with her renditions, especially one to the effect that "I Won't Marry The Farmer Boy," which practically

topped the dancing. Outside the ballroom on the bal-cony, couples huddled together in the cold, leaning over the rail like group of sea-sick vacationists. The only single male in the group was Edmund Thompson, who stood looking moodily out across the assorted trash piles and Stoll field. The others decided to be convenional, strew themselves around rhyming in couplets, which is what dances are for. In the ballroom, Chickie Penn and Ike VanMeter glared at each other and threaten ed to start slapping each other on the wrist, or sticking fingers in eyes over some unknown controversy. Jack Evans danced by with Dot Hillenmeyer, Jamie Thompson stood on the sidelines and glared with professional jealousy at the Hall aggregation which, he grudgingly

5:30 p.m.-President and Mrs. McVey at home to Alumni and Guests of the Graduating Class, Maxwell Place

6:30 p. m.-Academic Procession forms. A place will be reserved for alumni and all are cordially invited to be in the procession. -Commencement Ex-

ercises, Stoll Field

Alumni Day, June 2 Alumni returning to the campu for the reunion of classes ending in '3" and "8" will note quite an inno vation in commencement activities, which extend from 9 p. m. Wednesday night, June 1, the date of the Senior ball through Friday, June 3, 7 p. m. at which time Commence-

nt will be held in Stoll Field. Alumni day, Thursday, June 2 starts off at 8:30 a. m. with the annual breakfast for the Graduating Class, given by Dr. and Mrs. McVey at the Maxwell Place.

wing the breakfast there will be registration of alumni at the new Student Union Building at nine o'clock. All alumni will want to see the new building, which was officially opened May 14, and visit the new alumni office consisting of a suite of three rooms. Registration of alumni will continue until noon.

At ten o'clock, Class Day Exercises for the Class of 1938 will be held in Memorial Hall. Twelve-thirty will bring the Class

Luncheons for the members of the eunion classes ending in "3" and These informal luncheons where former classmates get together and talk over the "back when" days are one of the high-lights of Alumni Day. Plans for these luncheons are not fully completed but will be very shortly. So on registering at the alumni office be sure to get information about your class lunch-

The Baccalaureate Exercises will be held in Memorial Hall at four in the afternoon. Dr. M. H. Lichliter, pastor of the First Congregational Church of Columbus, Ohio, will be the speaker.

quet will be held in the new Student Union Building. This will be the first banquet to be held in the beautiful ballroom of the structure. Last year some 600 alumni attended the event which was held at the Phoenix hotel. This year it is believed that the number will well surpass the 600 mark.

Friday, June 3

For many years commencement exercises have been held on Friday morning in the Alumni gymnasium. This year, however, the exercises are to be held on Stoll Field at 7 p. m This leaves open the entire Friday morning which may be used by the returning alumni for informal gettogethers, visits to friends in Lexington, and trips to historic spots in the Blue Grass. The Alumni Office will have available points of interest that you may want to visit.

At 1 p. m. Friday, the annual luncheon for trustees, graduates, friends, and alumni will be held in the Student Union Building.

The tea at Maxwell Place which was formerly held on Alumni Day will be from 3:30 to 5:30 p. m. on Friday. Alumni and friends of the University and the graduating class are invited to attend this tea which is given annually by Dr. and Mrs.

be held on Stoll Field at 7 p. m. The academic procession will form at the south side of the stadium and a place s being reserved for alumni.

The commencement program, at which President McVey will preside, will open with a processional by the University of Kentucky band. invocation by the Rev. Robert Whitfield Miles, pastor of the First Presbyterian church; a number by a mixed chorus accompanied by the University band, followed by the address of Dr. Walter A. Jessup, president of the Carnegie Foundation for the Achievement of Teaching. President McVey will then confer the degrees and administer the pledge of senior class, and the program will close with the singing of "Alma Mater" by the assembly; benediction

by Dr. Miles, and the recessional. It is suggested that you cut out the complete commencement program appearing in this issue of Alumni News and keep it at hand for ready reference. If the Alumni Office can be of service to you in any way it will be glad to do so. Correspondence in regard to reunion and commencement activities is in-

Philadelphia Club The Philadelphia Chapter of the Box 484, Brookhaven .

sociation held its second meeting of 1938 on April 8. The meeting was held at the Engineer's Club and dinner was served in the Gold Room. The following members were present: Frank Dougherty, Boen Gibson, Avery Taylor, Berkley Hedges, Lu-cien Buck, C. E. Scott, L. C. Davidson, Henry Marsh, Dr. William T Pearse, O. M. Owsley, Carl Owsley, J. N. Waters, and J. Stewart. Present also were the following three guests:

Robert Hedges, Frank Moody, Thomas Harman. The subject of discussion was the possibility of a joint meeting of members and wives (or sweethearts) to be held in the Fall.

Favorable comment was heard on the new deal in athletics at the University. The members enjoyed the evening very much and voted to hold the next meeting on Friday, June 3.

Calling 'Em Wild

PRACTICALLY all of the campus citizenry elbowed its way into the new Student Union building Saturday night to blend their enthusiasm to the music of George Hall as the structure was administered its baptism into actual service. During the early stages of the swing-fest, seated in a chair on the first floor, was a well known local figure who has been a fugitive from the campus for some time. That person was George William "Bill" Boston, alternatecaptain elect of the 1938 Wildcat football team.

Badly Hurt For awhile, after he was felled by in practice session, the future of his being able to ever transport himself about on two sound legs seemed very black. A blood clot had stopped all circulation through the right leg and attending doctors fore-saw the necessity of an amputation should a delicate operation, his one surviving chance, fail. A specialist was recruited to whittle on his leg in the fateful move and while Bill lived through hours that intense pain increased until they seemed like years, the skilled hands removed the clot and restored the blood flow to the ailing limb. Soon after, his strength was rejuvenated by the first sleep he been able to get since his ac-

all probability have been reduced to the role of spectator, the fact were chosen: Margaret Becker, Wheelwright; Jeanne Beckett, Fort that Bill, will again be able to walk matters to the student body.

A Wise Move On April 20, Athletic Chief Bern-Shively and Coaches Ab Kirwan and Adolph Rupp pulled their state leau, Lexington; Frances Hannan, touring caravan into Paducah, deep Shelbyville; Helen Horlacher, Lexin Jackson's West Kentucky Pur-chase, for a night's rest and a good will banquet. It was the first time Marie McConnell, Danville; Jean a University of Kentucky coaching group had ever gone into that section solely on a good will tour and the prayers of alumni and University supporters in the city and surnding territory had been ans-

For years, repeated attempts had been made by loyal alumni to in-terest the football tutorial staff into Paducah on just such a good will mission, but prior to this year the bountiful football market in Chief Paduke's old hang out had been snubbed. Outside schools. chasing in on Kentucky's oversight had been enlisting some very valuable men from Tilghman high school, perennial West Kentucky grid power house, including such performers as Henry Cochran, varsity quarter back on Alabama's Bowl team of last season, Paul Locke, Washington University captain-elect, and Herbie Tade of Tennessee. Only one visit had been made to Paducah and that, a speaking date by Chet Wynne in 1935 had netted Joe Bailey. This year Ed Gholson, Edwin Jacobs and Walter Reid moved their education seeking to Lexing-ton. These men, four of the best lineman to ever graduate from Mosley's wildcat diamond artisfs Tilghman may be counted on to and Eastern State Teachers College man a goodly portion of the Wild- | was postponed to a later date yescat front line guns in next fall's

terday afternoon by Eastern offi-A team mate of Kirwan's, Curtis Sanders, former Tilghman coach, had made every attempt to entice Kentucky coaches to visit the city and talk with the players but the visit never came, either from Harry Gamage or Wynne. Meanwhile, agents from Tennessee, Vanderbilt, Alabama, Illinois, Murray, and Western had been picking up the players and shipping them off to their schools for their further grid contacts. Coach Rupp did his part by carrying his basketball on a tour through that section in 1935, an action which lifted the University's stock a lot but it was still football and it was football coaches they

wanted a call from. The mere fact that Shively, Kirwan and Rupp showed enough initiative and interest to make their call without months of persistent urging, completely captured the confidence of Paducah grid faithfuls

Going into the sixth inning Delta Chi led by 10-7 but Delta Tau Delta deadletked the fray at 10 will dead will be porters and explained the new deal in athletics at the University and the part each citizen in the state has to play in elevating 'Cat football fortunes to their rightful level. Delta Tau Delta deadlocked the fray at 10-up when Haynes slapped home run into right field with two mates abase. The seventh frame brought no change in the score but in the first extra session the Delt's put the game on ice when

BULLETIN

Delta Tau Delta won the right to play in the diamond ball finals by defeating Phi Kappa Tau 5-0 Monday afternoon at Woodland park. The Delts meet the ATO this afternoon at 4 o'clock at the

same locality. The Delts jumped off to a one run lead in the first inning and behind the capable hurling of Bill Tudor they coasted to victory. They added a run in the third, another in the fourth and two men crossed the plate in the sixth. Several times the Phi Taus threatened to push runners across the home base, but each time they were halted by the Delt south.

Alpha Tau Omega annexed their seventh consecutive win by warding off a desperate Alpha Gamma Rho rally to finish on top by 16-15. ATO opened early and pushed nine runs across the platter in the first inning and followed by scoring five in the second. With the drizzling rain soaking the ball and making it difficult to handle, Alpha Gamma Rho staged desperate rallies in the sixth and seventh innings but their efforts fell just short of a tie

The golf doubles eliminations have reached the final stage with Hund-Monaghan, driving for Al-pha Sigma Phi, due to tee off against the Phi Delta Theta com-bine of Flippin-Vance. Badminton tor, Dr. Sallie Pence; vice-director, singles are also due to be decided Within the next week with Burlew, Sigma Chi, opposing the winner of the scrap between Bugie, Sigma Chi
